

Dynamism

We have to be very busy people, because we are now employed by God (821101); So much dynamism and so much humility... what a combination, and that's what you have to manifest; The more you work... the more you assert yourself... you'll find that humility and obedience are the only things that will help you carry out your work... and you'll become humbler and humbler (890423); Dynamism is going to impress... be alert and dynamic, and work it out. The justification for doing nothing is very clever: "oh our ego will come up" - is very clever (890611)
