

## more "All-time Gaffes or Howlers" - part 2

**Gaffes part 2 - a guide to correct understanding of various Sahaja Yoga Topics**

**Freedom** = is allowed to us all, by the Divine, but with the caution to use our God-given common sense with Discretion and Wisdom

**Halfway House** - we need to decide where we want to go to achieve our ultimate destiny

**Your Hands will speak** - we also need to understand... that we should listen to what our hands are telling us, and **not** overly much to our Intellect!

**Learning to trust what our hands are telling us** - a real 'eye opener' when on tour in India

**Ask the Question** - of Shri Mataji: instead of using the brain, & thinking... thinking & then...

**Humble down in our hearts** - We have to be very humble people in order to grow & ascend

**England the Heart of the Universe** - is going to be the New Jerusalem - is going to be the place of the new pilgrimage

**Learning to love** - In the Heart, there should be 'Pure Love' & Compassion in Abundance but still, we seem to be treated almost everywhere as just Numbers. **In Sahaja is not so.**

**Transcripts not always so Reliable** - The multitude of SY's around the world are not all Native English Speaking Yogis, so errors are still possible - so Beware!

So to continue with this new part 2, we have 9 new items, & right at the top of this list is "Freedom" which includes perhaps an explanation of why it was that we all have been allowed so much seemingly unfettered freedom that we have managed to stray so far off course in our seeking. Apologies to all the 'now quite many' newer Sahaja Yogis, who have quite unwittingly taken on board all this misinformation, without realising its proper significance. We will be attempting to rectify the situation with this report.

If we pick up on these errors & rectify them as a matter of some urgency, we still stand a good chance, even now, of fully recovering the situation, & fully pleasing Shri Mataji.

(Look to the top right corner of the Pitfalls page for the links to the **All-Time Gaffes/Howlers**, & to the top left for a link to the autobiographical '**Sprinkler story**').

[They are also shown elsewhere but mainly behind the Main "**Index**" link in the '**Quick Access Links**' bar, then look beneath "**RESEARCH**" and also behind the **ABC (for newcomers)** link & then look towards the top of the page)

It is perhaps best to start with the '**QAL**' bar located near the bottom of the HomePage
