

more "All-time Gaffes or Howlers" - part 4

Gaffes part 4 - a guide to correct understanding of various Sahaja Yoga Topics

Be your own Guru - means not that we are perfect, but that we have to be strict with and correct ourselves.

Urdwagati or upward movement of ascent & Adogati or descent ending in decadence.

Sometimes there is need for a STRONG Photograph - but beware, that we may well see what is a reflection of our own condition - try to keep a smile always on Mother's Face.

Hospital still using some wrong Info - need to rely only on Shri Adi Shakti's Detailed Charts. But still, there are many Miraculous cures happening there, none the less.

Be sure we are doing it right - so no confusion is introduced to muddy the waters.

Absolute is perfection - we ourselves have still quite some way to go!!

[More...](#)

So to continue with this new part 4, we have 7 more items, and right at the top of this list is "Be Your own Guru" which means, not that we are immediately perfect, having just got our Realisation, but that we need to work on ourselves a little bit to correct ourselves, where necessary. Apologies to all the 'now quite many' newer Sahaja Yogis', who have quite unwittingly taken on board all this misinformation, without realising its proper significance. We will be attempting to rectify the situation with this report.

This corrigendum is aimed at the host of newbies coming to Sahaja Yoga globally each and every day & week throughout the year, for each & every year in the calendar. If there is no attempt to oversee & where necessary correct the multitude of misconceptions that are brought by each & every-one who comes afresh to our Collective, from a whole range of unlikely sources, then often a whole host of quite bizarre & sometimes quite weird ideas, do propagate, and then the Huge Advantage of being tutored by the most highly placed of Authorities, no other than The Adi Shakti Herself would be lost to all who sincerely want to rise to the topmost of positions that you can possibly imagine, with all the rewards that will accrue too.

(Look to the top right corner of the **Pitfalls** page for the links to the **All-Time Gaffes/Howlers**, and to the top left for a link to the autobiographical '**Sprinkler story**').

[They are also shown elsewhere but mainly behind the Main "**Index**" link in the '**Quick Access Links**' bar, then look beneath "**RESEARCH**" and then also behind the **ABC (for newcomers)** link & then look towards the top of the page] It is perhaps best to start off with the 'Quick Access Links' bar that is located near the bottom of the HomePage
