But then, I must say that, Sahaja Yoga when it started working out... I was given very great workers, tools of Sahaja Yoga... who took it upon themselves, as their own responsibility... and they really worked very hard with me... very few... but they did. The rest of them... can be divided into many categories... some came for their own treatments, or something like that, of a very low level... or some, when they got their Realisation, they brought all their sick relations to me... then some came for their financial and all sorts of mental problems... and some came for their family and spiritual problems... but the ones who took it up as their own responsibility, that this is what they have to do, this is their life, this is what their complete meaning is... they put entirely their attention to it... they worked it out, whatever was possible on their own level (800505)

So today we have to understand... that we really need those brave people... and those people who feel responsible. It is a very important virtue of Sahaja Yogis. The main thing is... what are you doing for Sahaja Yoga... what you can do... how far you can go... how you are going to work it out. In every walk of life... those who really work it out as a great responsibility upon themselves are the ones who will be given more and more powers, and chances (800505)
