

Radiance

A person who gets Realisation has a face which is very radiant... and radiance is the 'subtlety' of light... so the first element, which is light you can say... and the subtlety of the light is radiance... and so this radiance starts showing on your face... starts expressing itself... and with that radiance, people get impressed... and they start thinking something special about this personality which has radiance. Now we have seen my photographs also... many a times you will find lots of light around... that is nothing but the light in me which is giving radiance... because the light becomes subtler. So this is the subtle growth within you that takes place... your faces also start shining... they too have radiance... a kind of different complexion. This radiance is to be understood... is the subtle of the light, of which we are made (981216)

Light... is absolutely detached. Look after your light, otherwise it will extinguish. When it is established, others will see the light on your face. The light of love never burns, but dissolves all that is bad, turns away from what is wrong, has patience, and expels the darkness, within and without (871024)
