

Yo-Yo

The behaviour of human beings that resembles a yo-yo, in that we get the Joy and the Spiritual attainment, then go back to help others, and get caught up - because we are not yet strong enough. Because the Mahakali Power is not strong enough, and also because of weaknesses of the Mooladhara, we become unbalanced and lose our way. So first fix up the Mooladhara - then the desire can grow upwards, and can go anywhere. But first the Roots are important to be established (890619); Those people who are negative will always sit next to each other, will make friends with negative... and that's how even if they are improving, again they go down... they have accidents, have problems...
